

French Variety Camp

The FRENCH VARIETY CAMP at our Maplehurst Campus is designed to prepare and support children for our French Immersion program or for learning French as a Second Language. Our French Instruction classes, along with various other summer activities, promote French in a fun and relaxed setting. All activities are presented in French except for sports, art and science.

Please select your choice of specialty camp and campus on your application form.

Basketball, Science, Art & Outdoor Multi-sports

Maplehurst Campus

The focus of our **BASKETBALL** classes are on developing skills and providing drills, giving students the techniques and tricks to improve their performance. Students will not only improve their play, but also practice sportsmanship and learn to interact more positively with others.

With **SCIENCE**, fun and learning happen through active involvement, experiments, investigation and discoveries. Students will be asking questions, probing for answers, and trying to understand the world around them through Science.

In **ART**, students will be encouraged to think creatively, observe, describe, analyze and interpret, as well as express their feelings through art. They will be given creative freedom to express their artistic side with the support and techniques necessary to complete each project.

Our **OUTDOOR MULTI-SPORTS** classes allow our elementary students to enjoy a diverse range of sports activities and learn the basic elements of a wide variety of sports. In case of heat waves, the students will be moved to our spacious and air conditioned gymnasium.

Volleyball, Math Wizards, Gardening & Cooking/Baking

Maplehurst Campus

VOLLEYBALL is an interactive team sports, which was introduced in 1896. It involves teamwork and a lot of physical exercise and strategic thinking.

MATH WIZARDS class brings joy to learning math facts through fun activities, helping students build math confidence and understanding. These activities will brighten the students' way of learning Math, expanding their skills and learning without knowing it.

GARDENING AND NATURE STUDIES program is both productive and fun! It allows students to engage all their senses and develop skills including: Responsibility— from caring for plants. Understanding— as they **learn** about cause and effect (for example, plants wilt without water, weeds compete with plants) and Self-confidence – from achieving their goals. They also get some botany lessons during this program.

In our **COOKING/BAKING** program, the students enjoy eating what they make during the class and improve their creativity, problem solving and critical thinking skills at the same time.

Soccer, STEAM & Outdoor Multi-sports

Maplehurst Campus

SOCCER drills, practice, and games give students a great cardiovascular workout. They also help improve flexibility and strength, while practicing good sportsmanship.

STEAM education is an approach to learning that uses Science, Technology, Engineering, Art and Mathematics as access points for guiding student inquiry, dialogue, and critical thinking.

Our **OUTDOOR MULTI-SPORTS** classes allow our elementary students to enjoy a diverse range of sports activities and learn the basic elements of a wide variety of sports. In case of heat waves, the students will be moved to our spacious and air conditioned gymnasium.

Badminton, Coding, Drama & Outdoor Multi-sports

Maplehurst Campus

This program's focus will be on teaching the basic skills and techniques needed to play **BADMINTON**. It also allows students to indulge their love for athletics while enjoying the company of their peers and having a great time.

COMPUTER CODING is an essential skill for the 21st century. Our young programmers will use MIT's innovative Scratch visual programming tool to code their own interactive stories, games, and animations.

Research reveals the positive impact of **DRAMA** on a child's physical, emotional, social and cognitive development. Students will have the opportunity to explore their creativity and self-expression, gaining self-confidence in their ideas and abilities.

Our **OUTDOOR MULTI-SPORTS** classes allow our elementary students to enjoy a diverse range of sports activities and learn the basic elements of a wide variety of sports. In case of heat waves, the students will be moved to our spacious and air conditioned gymnasium.
